The latest in barrier technique.

Would you buy drugs from this man?

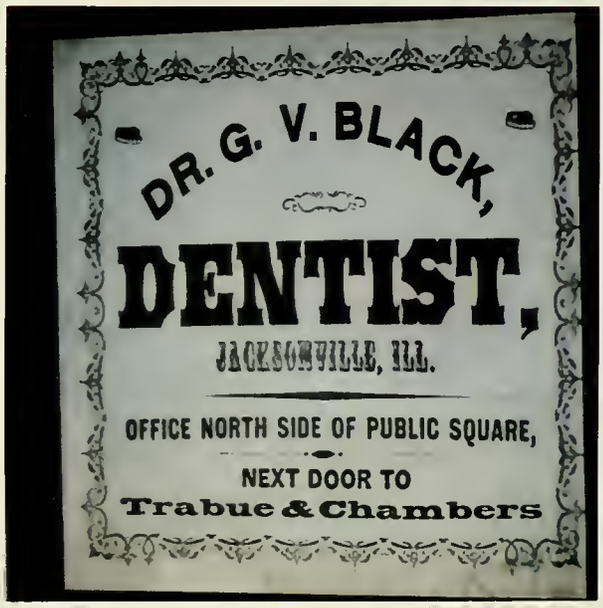
"Hey man, we can work that out."

Esthetic dentistry at work!

Endo is mellow.

Lucky him

Dental school can be fun too.



Friday PM Clinic

HONORARY SENIOR CLASS PRESIDENTS

Margaret Merry and Chris Vennetti typify the qualities desired in the selection of Honorary Class President. Their friendliness, professional demeanor and most importantly their sincere concern for the welfare of the students of this school have earned them this title. The fact that they work so closely with the students on a daily basis further reinforces their selection as Honorary Class Presidents. It is hoped that this gesture indicates our respect and gratefulness for their dedication.

DOMINICANA DENTISTRY

During June and July of 1986, eight members of the Class of 1987 were given the opportunity to volunteer a portion of their vacations in order to assist Dr. Serio. As our stay in San Jose de Ocoa progressed we began to develop an understanding of why Frank returns to this Third World country year after year after year.

Great bunch of ladies, eh?

Since 1982 Dr. Francis G. Serio has been organizing an annual trip to the Dominican Republic to provide volunteer dental services to the "poorest of the poor." The month long trek is organized through the Catholic Medical Mission and the Religious Hospitallers of St. Joseph.

"EL JEFE"

In Dr. Serio's words, the "common bond" that formed between us is something that all those who participated will always fondly remember. As our leader also predicted, we would all grow with the experience — dentally, spiritually and personally. It is in thanks for the opportunity to grow and for the fond memories que brindaremos con *El Presidente* a *El Jefe*.

CASINO NIGHT . . .

. . . ONE WARM SUMMER'S DAY

Sent to postgrad ortho

Worst case of cheek biting we've ever seen.

In order to be selected as a candidate for membership in Who's Who Among Students in American Universities and Colleges, a student must be an outstanding leader, scholar, citizen, and participant in both educational and extracurricular activities.

To be chosen for this honor a student is first recommended by the University and is then voted on by the National organization.

GORGAS ODONTOLOGICAL HONORARY SOCIETY

The Gorgas Odontological Society was organized in 1915 as a student organization and later it was changed to an honorary dental student society with scholarship as a basis for admission. The Society is named after Dr. Ferdinand J. Gorgas, a pioneer in dental education and a great contributor to dental literature, and it was with the idea of perpetuating his name that the society adopted it.

The Society makes for its objective the furtherance of dental knowledge by discussion and lectures. Gorgas is comprised of Junior and Senior members whose scholastic endeavors have placed them in at least the top third of their class.

GAMMA PI DELTA PROSTHODONTIC HONORARY SOCIETY

Gamma Pi Delta was chartered in 1965 as an honorary student dental organization with scholarship and interest in the field of Prosthetic Dentistry as a basis for admission. The prestigious honor society requires maintenance of at least a "B" average in the disciplines of both Fixed and Removable Prosthodontics for all four years of dental school.

This year Gamma Pi Delta had four meetings at various restaurants in Baltimore. Special guest speakers were present at each dinner with their goals directed toward stimulating the creative interest of prosthodontics in general dentistry.

ALPHA OMEGA

Alpha Omega is an international dental fraternity founded in the early 1900's. Since then it has evolved to be a well-respected component of the dental profession with members in the U.S., Canada, Europe, Israel, South Africa, London, Mexico, and Australia. The fraternity is represented by a triangle whose base is Judaism and sides are fraternalism and professionalism.

Zeta Mu, our local chapter, is eighty members strong and is proud to have received an honorable mention award for chapter efficiency. Our yearly calendar includes many exciting social and professional events which help to maintain a close relationship with our Baltimore alumni chapter, participating together in many professional and social forums.

All the members of the Alpha Omega wish the Class of 1987 the best in health, happiness, and success.

PSI OMEGA

The Psi Omega Fraternity was founded at the Baltimore College of Dental Surgery in 1892 by four members of the graduating class of 1894. The Alpha Chapter at the University of Maryland as it is known today strives to continue in the pursuit at the basic concept of the Fraternity's beginning ninety-three years ago — to offer a stimulating source of diversion from the many hours of dental education spent in the classroom, laboratory and clinic. Psi Omega extends a welcome means of relaxation and social fraternalism to members all dental and dental hygiene classes as well as alumni at Maryland.

XI PSI PHI

The Eta Chapter of Xi Psi Phi is an Honorary Dental Fraternity where admission is not based on scholarship but rather the ability to maintain professionalism in a state of inebriation. The fraternity is represented by a hollow, cylindrical object whose base never touches table when empty, whose sides are well gripped by five agile digits, and whose top edge is often found near the obicularis oris muscle. Xi Psi Phi, better known as Zip, provides a tradition of annual events commencing with warm beer/cold pizza night identifying those who will be submitted to the mysterious and esoteric rite of membership selection known as sink night. The adventure continues with the bar terrorizing limo races, balcony climbing camelback ski trip, and ending the year with Zip's version of a dental convention at Dewey Beach. Throughout these events and the many other Zip sponsors, Zippers try to uphold the highest professional standards, and when accidentally exposed to the community, readily admit to being air traffic controllers. Best of luck to all senior Zippers. Zip forever.

The meeting to organize the Southern Dental Association was held in Atlanta, GA on July 28, 1869, at which time a number of southern dentists assembled in the city hall of Atlanta for the express purpose of forming that association.

This organization was later renamed the National Dental Association. This organization serves the needs of minority dentists until this day. In Maryland the Baltimore Dental Society finally voted to accept Negro dentists as members beginning in 1960.

In 1972 a group of dental students decided to form a student branch of the National Dental Association, the Student National Dental Association. One of the people instrumental in this pioneering effort is Dr. Tony Maddox (the first black graduate of BCDS).

The Baltimore Chapter of SNDA is the first chapter to establish a scholarship fund. This fund, named the Robert T. Freeman/Martin Luther King Jr. Scholarship Fund, set a precedent for the other 30 chapters.

SADHA is the dental hygiene students' professional organization. As members of this organization we hope to gain an understanding of our profession and our role in the communities we will serve. Our goal this year was to become recognized in the Dental School, as well as on the UMAB campus. To reach this goal we became involved in different activities, such as revising our Constitution and Bylaws, forming a dental hygiene liaison program with dental students, and participating in the USGA. SADHA is also involved with community/public health activities, fundraising, spring banquet plans and professional growth.

Student participation in SADHA insures that the University of Maryland Dental Hygiene program graduates will be active and vital participants of the dental health care team and their local American Dental Hygienists' Association.

NEWSPAPER OF THE WORLD'S OLDEST DENTAL SCHOOL

VOLUME 16 NUMBER 1 SEPTEMBER 1986

Dr. Birute Antonia Balciunas

Co-Editors J. Waddell and A. Grzech

Birute Antonia Bolciunas, D.D.S.

Dr. "B" graduated from Case Western Reserve University School of Dentistry in Cleveland, Ohio in 1975. There were only 4 women out of 72 students in her class. She was a vice-president and president of her classes and says of her alma mater. "I enjoyed dental school very much. We were treated very well by the faculty there." From dental school, she entered the Navy on a scholarship. There were only 6 women in the program at the time, and it was a hard transition because it was a very male-oriented environment. "My mail was sent to a *Mr. Toni Balciunas*, and it took me 3 days to find out my locker was in the men's locker room," says Dr. "B" with a chuckle.

Upon completion of her two-year stint in the Navy, Dr. Balciunas went on for her masters in oral diagnosis and oral medicine. She has what she calls "a practice dealing specifically with TMJ dysfunction, oral lesions such as lichen planus and pemphigus and myofacial and atypical pain." She no longer does general dentistry. She deals with pain not typically found in general dentistry.

Dr. Balciunas came to the Baltimore College of Dental Surgery, Dental School, University of Maryland as an assistant professor of oral diagnosis in August 1979, the year she received her M.S.D. degree from Indiana University. She was involved with the Myo-oral Facial Pain Clinic from 1981-1983, but since that clinic no longer exists, you may find Dr. "B" either down on the clinic floor in the new radiology screening treatment planning area or the Oral Medicine Clinic treating TMJ referrals in faculty practice or giving lectures to medical residents and dental postgrads in conjoint science and biomedicine subjects.

Dr. Balciunas is the Treasurer of the Faculty Assembly and a Vice-President of Omicron Kappa Upsilon and has an appointment in the Psychophysiology Clinic which has a very unique multidisciplinary treatment for somatic disorders. The clinic treats TMJ pain, headaches and stress with a combination of biofeedback and counseling. Patients are taught to recognize and deal with their problems.

When asked what the future holds, Dr. "B" says she will be staying in the Baltimore area since her fiance is situated here. She will continue to be teaching and would like to see the students and faculty learn more about facial pain. She would also like to see the Myo-oral Facial Pain Clinic reinstituted. "We seem to be missing an important educational opportunity without the clinic" says Dr. Balciunas thoughtfully.

Dent

Mark your 17 when the U fall Blood Driv join the other drive each sem its particular drive.

The Dental School will hold its first semester drive on WEDNESDAY, NOVEMBER 19, between the hours of 9:00 a.m. and 7:00 p.m. Please note that this will be the first time evening hours will be provided for a Blood Drive. (Yes, another *first* for BCDS.) The Dental School is the only school offering the campus community the opportunity to take advantage of evening hours. If this proves to be successful, evening hours could possibly be expanded for the spring drive.

If you will not be available on the day set aside for the Dental School (Wednesday, November 19), you may donate blood at any school and have your donation credited to the Dental School.

Additional information on donating blood and how to sign up for an appointment will be distributed in October.

Where the Students Are

Christopher Cogguillo '88

In *The Probe's* May issue, Dr. Sharon Siegel posed the question, "where have all the students gone?" She assessed current students' "mental attitudes" as devoid of desire in gaining knowledge. A problem definitely exists which uncovers a basic misunderstanding in student-faculty interactions. In other words, the problem is not solely the students. Perhaps, it is not student motivation but inaccessibility to the tools necessary for professional development. These tools lie within the realm of faculty interest. For illustrated purposes, I have developed two stereotypical attitudes of faculty experienced by the confronting student. Please note, however, that a broad spectrum exists between the two extremes.

First, let us consider bad faculty attitudes! He/she is the type that makes a student shrink away from seeking instruction and damages professional development. Such a condition is perpetuated by the omnipotent instructor, one that utilizes intimidation tactics, using humiliation as a vice. These instructors demand to know what a student is "attempting" to do. They expressly ask what we don't know to find out what we do know. Such a practice seems utterly ludicrous in modern dentistry, a

2 Fillet of Flounder (That's one fish)
1 lb. Crabmeat (Ask for best and pick it for shells)
1 tbs. Mayo.
2 tbs. melted butter
1 tsp. dry mustard
2 tsp. milk
1 beaten egg
paprika (if desired)

Combine beaten egg, milk, mustard, butter, and mayo. in large bowl and mix. Fold each fillet in half and stuff with crabmeat. Place in lightly buttered pan and sprinkle with paprika. Bake at 400° for 20 min.

Congratulations to BCDS' Sweetheart Patti DiMarco. Miss Dimarco, who formerly reigned as the Freshman Sweetheart secured the throne with over 540 votes at the tune of $135.00. Thanks to Patti's perseverance and your generosity our class again made a top showing among the others here at BCDS. Freshman Sweetheart John Angelou put his best foot forward also but even his charm, sex appeal and savoir fare couldn't get the votes to beat the dashing Senior Sweetheart Charlie Steinburg. The money collected will be given directly to upperclassman Louis Rizzuto who has been hospitalized since last semester.

Dr. Di Gianni

Dear Savage:
Upon recent release of the class composite picture, I have been debating a career in modeling. Compliments have been astounding and I wonder what chances I might possibly have on Fifth Avenue endorsing toothpastes and mouthwashes.
Signed
What Willie do

Dear Photogenic:
In reviewing the picture in question, the only thing I can discern is that your favorite TV show as a kid must have been the Brady Bunch. As far as a career in modeling is concerned . . . you have no good side.
Signed,
Savage

Dear Savage,
Periodically I have problems with my class notes catching on fire. I had the same problem as a child when my "harp" used to burst into flames during music lessons for no apparent reason. Is there anything I might do to prevent this from happening next semester?
Hot and Bothered in 2-A-21

Dear Flaming Lyre,
You might invest in some asbestos notebooks and sit under a sprinkler-system fixture in lecture whenever possible.
Savage

Dear Savage:
It's been two years since we've last communicated. I want to thank you for your advice. My latest dilemma is a huge career decision. My choices are a career in education or a student proctor here at BCDS. My anatomy tells me I should go into research, but my cephalometric profile tells me to become a clinician. Please help.
Signed,
Busy Beave

Dear Beave:
Leave it to destiny. Just read the writing on the wall and try to be more trusting of your cohorts.
Signed,
Savage

Dear Savage:
Every time a nice looking female patient visits our clinic I have the uncontrollable urge to hover around that cubicle. I think the students are catching on. What should I do?
Signed,
PocketRocket

Dear PocketRocket:
Aside from the obvious use of salt peter you could try using an antisialogoge and stand behind a mobile cabinet wherever you go.
Signed,
Savage

Dear Savage:
I am quite distraught. I know I should have been a shoe-in for acting chairman of the recently founded Gnathology department. Why am I constantly overlooked? After all, why would I go through two years of post-grad training, surely not just to provide patient care!
Signed,
Obsessive-compulsive

Dear O-C:
I am not quite sure if you should be a Gnathologist or a Proctologist. Give up.
Signed,
Savage

Dear Savage:
Dad's check is almost five days late. Even with the 10% discount at Luskins my funds have been depleted. I'm not sure if the Swedish hair bleaching and tanning salon was a good investment, as my latest lover is unwilling to try it out. What shall I do?
Signed,
Richie Rich

Dear Hose:
As they say, you can lead a horse to water, but can't handcuff her!
Signed,
Savage

FROM THE CLASS PRESIDENT

The years have passed quickly even though there were days that lasted forever. We came from all over and from all kinds of backgrounds to share the experience. And oh what an experience! As if dental school weren't eventful enough, we've also shared the births of loved ones, the death of loved ones, marriage, divorce, and a couple people even became American citizens. But that's the point; there was someone there, student or faculty, to share it with and to ease the burden. It was that togetherness that made our class a pleasure to work with and to work for. Thanks to everyone for your help. I hope when you look back you remember some of the good times we've had as a class. Good Luck and Congratulations!!!

Pat Warner

FROM THE S.D.A. PRESIDENT

If it is true that adversity brings endurance, and to endure means that you have proven the test of time, then all of us attending the Baltimore College of Dental Surgery will be well-prepared for the future. This adversity that we, as dental students, must put up with often makes us feel depressed with the educational system.

As president of the Student Dental Association, my goal has been to provide the students with memories of the enjoyable aspects of dental school. This has not been a single-handed task for I have had the cooperation and dedication of a few individuals. I would sincerely like to commend those of you who helped make these enjoyable memories possible.

Jody M. Waddell

FROM THE EDITOR

The time has come for change. We have fought the good fight — we have finished the race. We are all about to realize some of the rewards that people who own a certain piece of paper are privy to. The truth is, however, we are not changed by a piece of paper. We have not finished the race — the fight is not over — it must continue. The pursuit of excellence does not end!

The intent of the 1987 edition of The MIRROR is to somehow capture a small part of that fight and record the people in the race. Any omissions and/or mistakes are truly an oversight which is inherent in the mammoth task of putting together the pieces of this puzzle called a yearbook.

The true test as to whether this edition of The MIRROR is successful should come sometime around the turn of the century. Your copy of The MIRROR should remain undisturbed on some dusty shelf — forgotten for fifteen to twenty years. If, at that time, the smell of dust and mildew is stronger than the smell of printers ink, then it is time to peruse the pages. Hopefully, the content will jar loose some of the memories of the good part of our four-year tenure here which was, of course, the people.

Bill Scheier

What's the perfect location for you?

"Healthco helped me make a better decision."

"Not being a follower, I wanted to practice a thousand miles from where I went to dental school. Healthco's sales rep contacted me, and I gave them my guidelines. They did their homework and found a perfect location for a general practice.

"Healthco painted a complete, balanced picture for me, comparing my various options and showing a sincere interest in placing me in an area where I would be welcome and where I could grow."

You can be one of the many successful new practitioners who are being helped by Healthco. Once we help you locate, we work with you in planning and designing your office, selecting your equipment and financing it at simple fixed interest rates, and showing you how to buy your supplies economically.

Investing in the Future.

...Patterson's history of progress

Patterson Dental Company grew from a proud heritage begun in 1877, when young M. F. Patterson opened a dental supply counter in his Milwaukee drug store. Soon thereafter, he relocated the company to the growing Minneapolis area, where it is headquartered today.

Patterson's history is characterized by progressive company growth. By the 1960's the company had expanded to 36 branches located primarily in the Midwest, Southeast and West. Since then, Patterson has continued to grow and today employs more than 1500 people in over 90 locations... creating a national distribution network united by advanced computer technology.

...growth for tomorrow

Patterson Dental Company is committed to the future of dentistry... we're planning now for the dentistry of tomorrow.

Toward that goal, we've invested in management technology and human resources: a national computer network, inventory and management systems, office planning and design, technical repair service, recruitment and training, and professional education programs for dentists and staff. Additionally, Patterson has created a centralized institutional bidding department to handle the specialized needs of dental facilities in Veterans' Administration hospitals, military bases, dental schools, and government clinics.

We strive to stay at the forefront of the dental industry, meeting the complex needs of tomorrow with innovations that begin today.

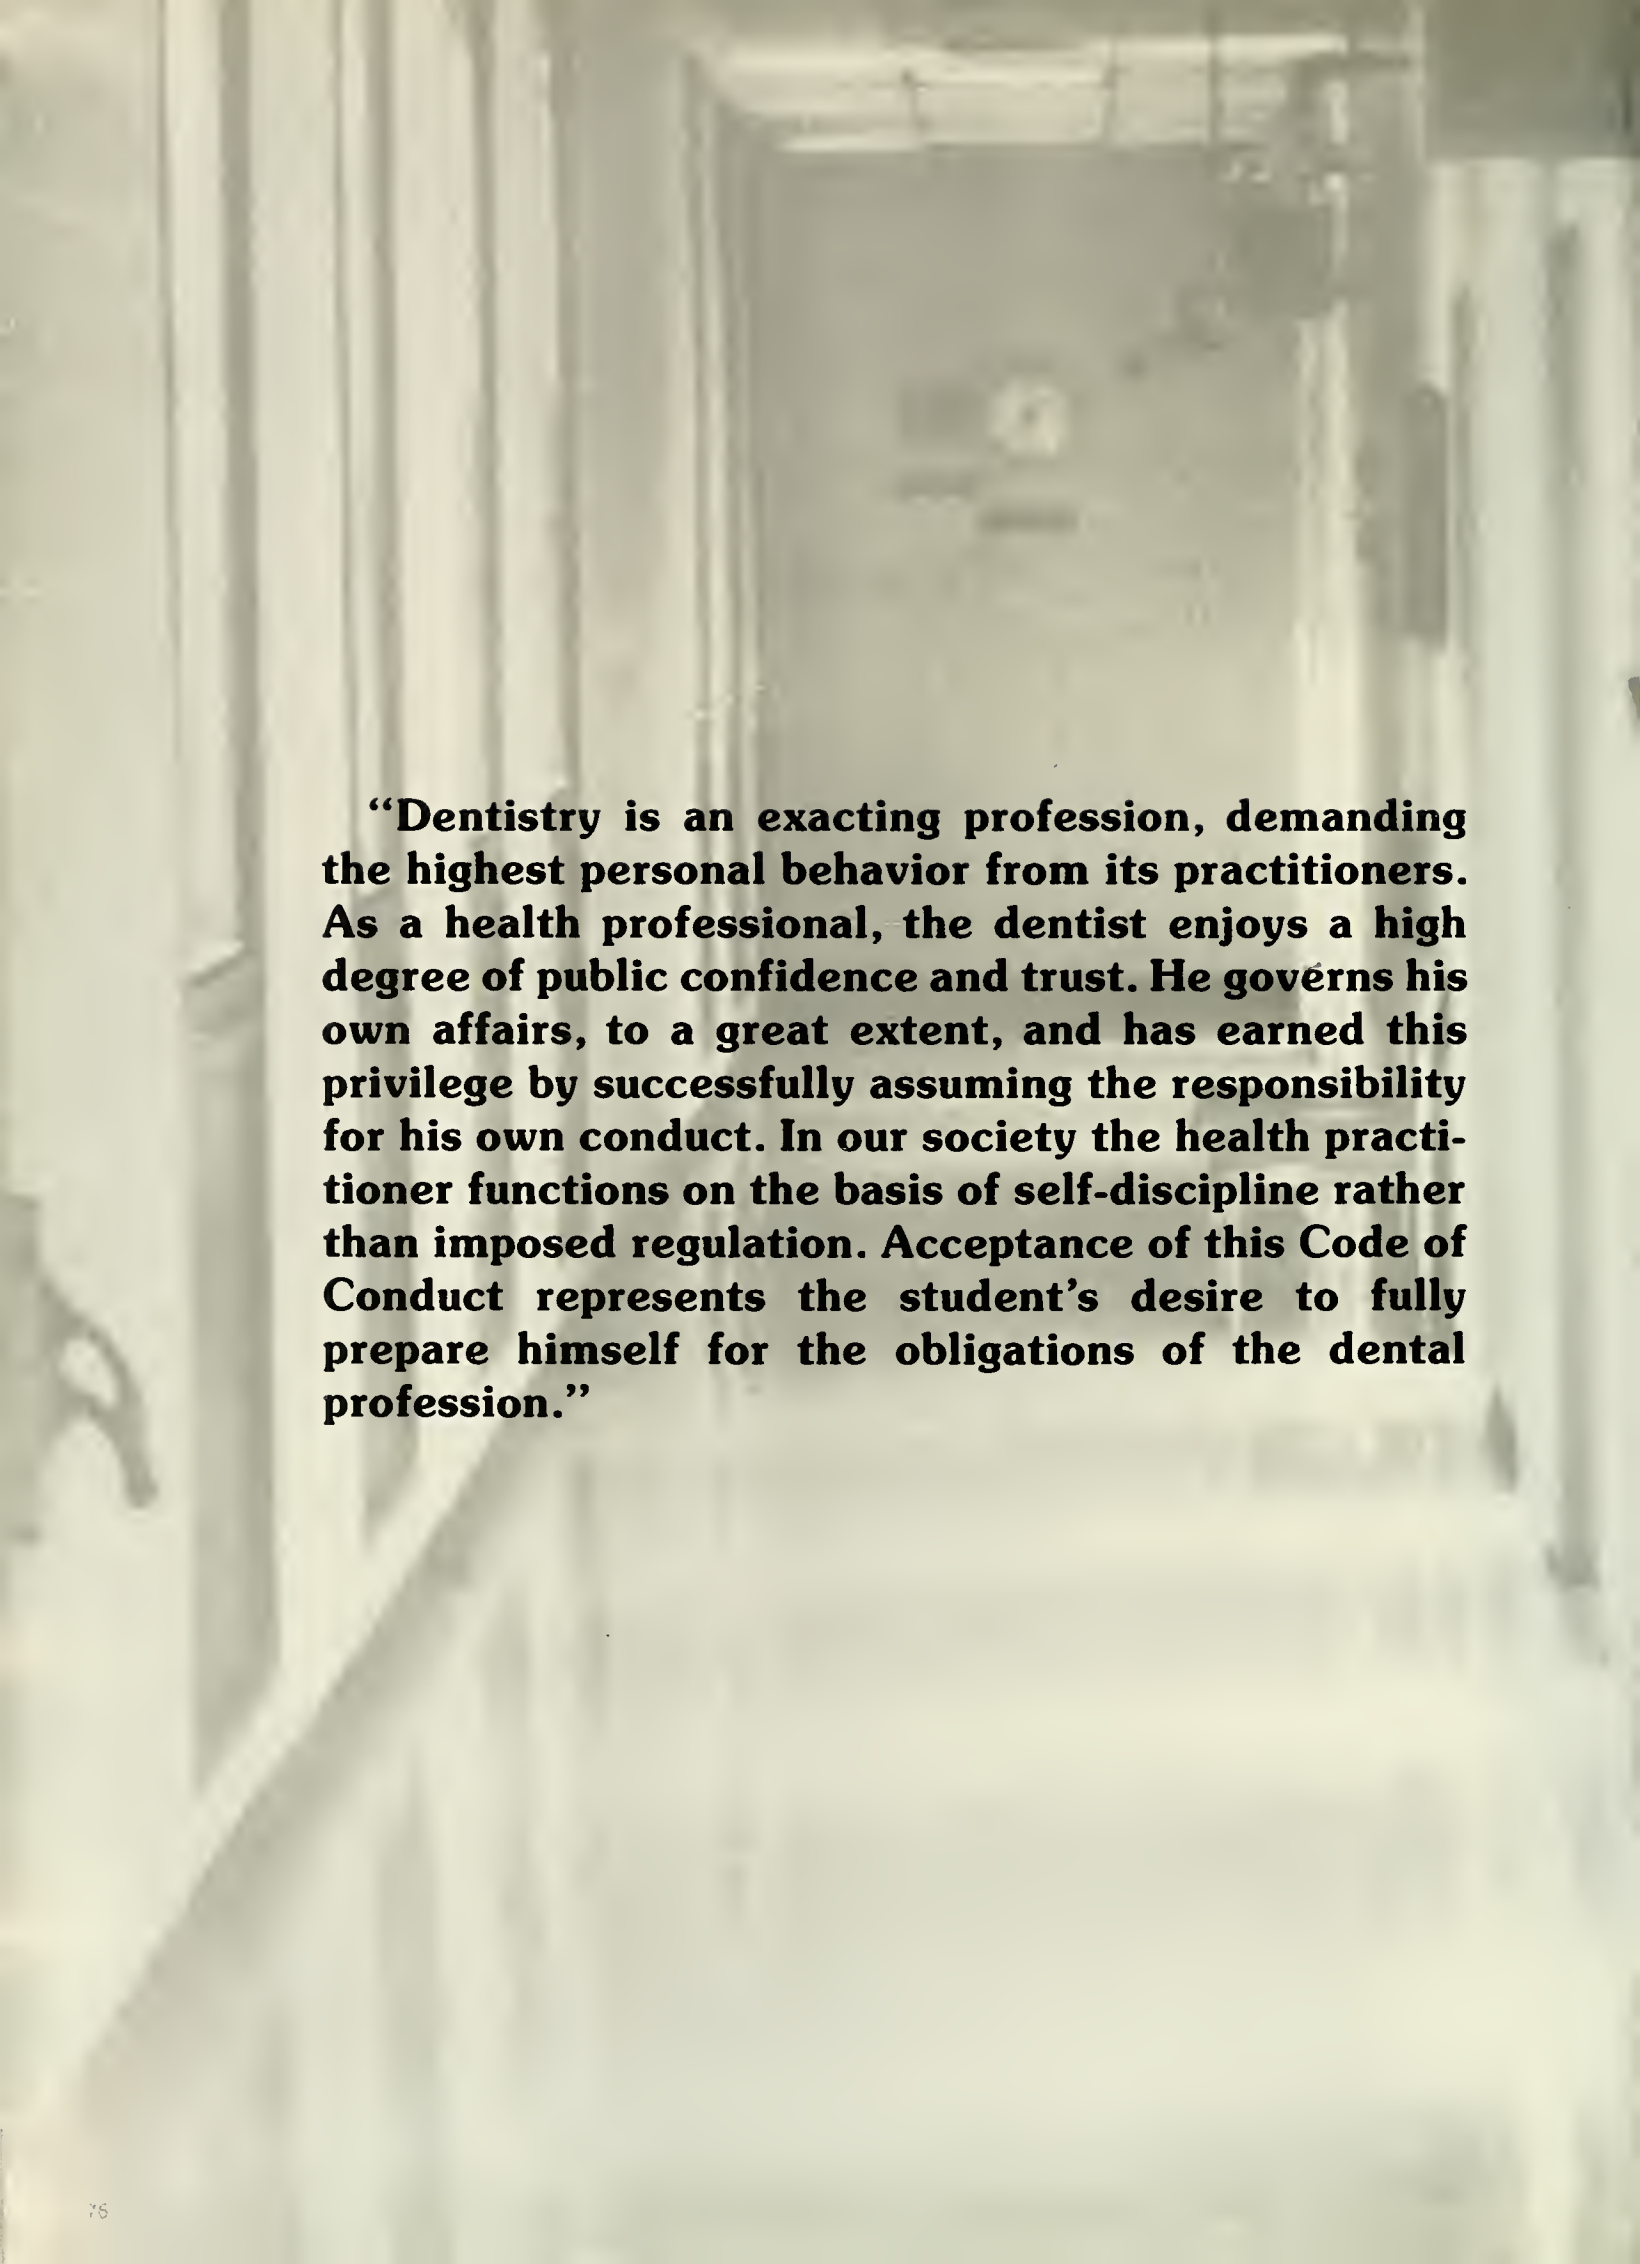
THE CARTER CTR. DELI (THE P.D.)

". . . Wishing the Class of '87
Our Best in All You Attempt
. . . and That's to Eat Here."



"Dentistry is an exacting profession, demanding the highest personal behavior from its practitioners. As a health professional, the dentist enjoys a high degree of public confidence and trust. He governs his own affairs, to a great extent, and has earned this privilege by successfully assuming the responsibility for his own conduct. In our society the health practitioner functions on the basis of self-discipline rather than imposed regulation. Acceptance of this Code of Conduct represents the student's desire to fully prepare himself for the obligations of the dental profession."
